

Christopher Guy Luke

Developing Your Intuition Workshop

What is Intuition?

It is the subconscious process of being open to information, receiving information, and becoming aware of what to do, how to solve a certain problem, or how to achieve a certain plan or goal

You may also associate this with purely going with your feelings, backing a hunch about someone or something

What Will You Learn?

The day is a practical introductory exploration of your intuitive powers.

The teaching and the session exercises will guide you

on how you may wish to develop these talents in the future.

It is a relaxing and interesting day spent with like minded people

How Will This Course Benefit You?

Our intuitive mind helps us make better decisions in our everyday life whether in relationships, at work or at home

Our intuitive mind is capable of being strengthened so consider this class to be an intuitive gym work out – if you do not use your intuition, you will lose it!

You will leave the class with practical exercises that you can practise by yourself

If you want more information – book a FREE Skype call and I will explain more about the class and how it will benefit you!

Class Bookings at <http://intuitively.webs.com/classes>

The price is £75 for the day (excluding refreshments)

This class will enhance your Life!
